

## PRESS RELEASE

---

### STUDIO LIGHT SYSTEM 5000 COMPACT for professional tabletop photography

JUST Normlicht has introduced the new STUDIO LIGHT SYSTEM 5000 COMPACT at Drupa. With the introduction of digital photography, an important new medium has moved into the graphics world. From the photographer to the ad agency, from the repro shop up to the printer, the potential of digital photography presents unlimited opportunity.

Just Normlicht developed the STUDIO LIGHT SYSTEM 5000 COMPACT especially for use in digital photography. For those who wish to use all the advantages of our STUDIO LIGHT SYSTEM 5000, the new STUDIO COMPACT offers a complete, smaller lighting system that allows for quick set-ups and an efficient working environment. The STUDIO COMPACT is ready in minutes and comes completely equipped with two lamps that are variably adjustable on mobile support arms. The time and cost savings of the Studio Compact are evident when shooting catalog photos, running whole photo series, or taking high quality digital photographs.

The STUDIO LIGHT SYSTEM 5000 COMPACT by Just Normlicht meets the needs of the digital photographers who wish to capture a color correct photograph of smaller products in a quick and efficient environment.
